Career Objective:

A dedicated Computer Science undergraduate who quickly adapts and excels in any technology chosen to focus on. Seeking an internship role where I can turn that focused ability into real, high-quality software solutions.

Skills:

Category	Frontend	Backend	Database	Programming Languages	Tools & Other	Soft Skills
Technologies	React.js, Jinja, HTML5, CSS3, Tailwind, Bootstrap, Vanilla JS	Flask, Node.js, Express,	MongoDB, Firebase, MySQL	Python, C/C++ (DSA, OOP)	DaisyUI, ShadCn, Git, CDN, Hash Password	Problem Solving, Leadership, Communication

Professional Experiences:

• HandCash (1k+ Install 200+ Regular User Who Earn Money By Watching Ads)

Year: 2018 - 2021

An Android application where users earn money by watching ads. Built using Kodular/Makroid with Firebase Realtime Database for task management. Developed a separate admin app to manage users, assign daily tasks, and control access.

Projects:

• TinyTask – Educational Based Platform Earning Credits (Built with MERN Technologies)

Developed a role-based educational earning platform featuring three admin roles, category-based task management, SSLCommerz payment integration, and subscription-based user access control.

• Medicamp – Medical Campaign Management System (Built with MERN Technologies)

A real-time management system designed to facilitate the publishing and registration of medical camps following role base authentications. It was a exploration of Tailwind based ShadCN Framework. Check my github repo's for better showcase.

Education

• B.Sc in Computer Science & Engineering

National University of Bangladesh - Currently
Studying in 8th semester
CGPA: 3.54/4.00 (Up to 6th Semester)

Extra-Curricular Activities

- Vice President(Admin) & Instructor at Programming Club, Tejgaon College, Dhaka
- Placed 2nd Place in Hackathon in CSE Fest 2024, Tejgaon College

Certificates:

- CS50's Introduction to Computer Science 2026 (Final Project was Needy)
- ICPC Dhaka Regional Onsite Contest 2025
- Complete MERN Web Development From Programming hero 2025
- Competitive Programming – Beginner From DevSkill
- Google Crash Course on Python From Coursera
